DATA SHEET

Polycom Trio™ 8800 Visual+ Accessory

Turn your audio calls into productive collaborative meetings

The Polycom Trio™ 8800 conference phone’s award-winning design, the first of its kind, allows you to easily add the optional Polycom Trio™ Visual+ accessory and a USB compression camera transforming your audio conference into a powerful video experience. The Polycom Trio Visual+ accessory supports high definition 1080p video allowing you to see your audience and experience their emotions right as they happen.

Bring your own device
Polycom Trio is an ideal communication solution for every meeting
What if you want to share your ideas and concepts visually, from your PC, tablet or smart phone? With the Polycom Trio Visual+, you can easily share high definition content such as presentations, spreadsheets, photos and even multimedia videos with everyone in the room, by connecting using your Apple® AirPlay® or Miracast® certified devices for wireless flexibility or share content with remote participants via Bluetooth/NFC, IP or USB connectivity.

Simple deployment
Polycom Trio Visual+ is quick to deploy with simple plug-and-play connections: HDMI for your display, USB for camera and Power-over-Ethernet (PoE) for electricity. That’s it! With its small footprint, it can easily be mounted out of view.

When paired together, Polycom Trio 8800 conference phone and Polycom Trio Visual+ accessory provides flexibility and performance, making it the perfect choice to enable small team collaboration and it is priced right for mass deployment.

Benefits
• Expand Polycom Trio conference phone, the world’s clearest and richest audio experience, by adding visual collaboration
• Improve team collaboration by easily sharing ideas, concepts and reactions
• Easy plug-and-play for immediate deployment
• Priced right for mass adoption
Product specifications
The Polycom Trio Visual+ accessory is designed to allow you to easily add content sharing and video conferencing capabilities to the Polycom Trio conference phone. It is not designed to operate as a stand-alone system.
