Organizations need more agile and effective teams. The desire to meet quickly with teammates near and far, share ideas, and collaborate on critical projects has fueled the demand for visual collaboration. To meet this growing demand, organizations seek turnkey solutions that can be easily and consistently deployed without costly room remediation. Polycom® RealPresence® Medialign™ solutions deliver the industry’s best video collaboration with an innovative, modern design that deploys anywhere in minutes.

Simple, all-in-one collaboration
Polycom RealPresence Medialign includes everything you need to easily deploy video communications. RealPresence Medialign offers single-sku ordering with patented ‘no-tools-required’ installation in any location. Perfect for medium to large rooms, RealPresence Medialign comes complete with single or dual 55” or 70” LED monitors, high-fidelity audio, tabletop microphone arrays, Polycom EagleEye cameras and the powerful RealPresence Group Series 500 video codec.

Unmatched user experience
With 1080p60 resolution for both video and content and Polycom’s legendary audio, RealPresence Medialign offers a best-in-class collaboration experience. But the unique Polycom innovations make all difference.

Hands-free camera operation with Polycom® EagleEye™ Producer or Polycom® EagleEye™ Director II automatically frames and tracks meeting participants. Polycom® NoiseBlock™ and Polycom® Acoustic Fence™ technologies remove distracting non-speech sounds like typing, shuffling papers and even barking dogs. Polycom® RealPresence Touch™ replaces confusing remote controls with a simple touch-screen interface. Every detail has been addressed to ensure your teams can focus completely on effective collaboration.

Powerful collaboration
Collaborate visually on concepts, images and media—with ease. Polycom® SmartPairing™ connects your BYO devices for sharing and annotating content from your device, the web and even cloud storage. Provide virtual whiteboard collaboration for everyone both in and out of a call with embedded Polycom® VisualBoard™ technology in RealPresence Medialign.

Broad interoperability
With the industry’s broadest support for open, standards-based interoperability, native integration into UC deployments including Microsoft Lync / Skype for Business and BroadSoft One, RealPresence Medialign protects your investment from shifting business landscapes.

Benefits
• Save installation time with simple no tools deployment
• Integrate into broadest array of UC networks—Compatible with current communication technology investments and with new and emerging systems to deliver the best investment protection
• Straightforward global deployment—All in one package provides everything from cables to displays to expand video collaboration to every location
• Best-in-class user experience with hands-free camera operation, simple touch interface control and audio innovations that eliminate distractions for more effective meetings
• See and share ideas and reactions with high-performance video and content sharing options
• Low total cost of ownership with easily replaceable components
• Fits into any room environment with unobtrusive modern slim line design that adds contemporary influence to your workspace
Standard components in each package

- **Polycom RealPresence® Group 500** delivers powerful video collaboration performance for conference rooms and other meeting environments in a sleek design that is easy to configure and use.

- **Polycom RealPresence Touch** is a touch interface that allows you to focus on your conversations instead of the technology.

- **Polycom EagleEye™ IV** (included with EagleEye Producer packages) is a completely digital camera with a 4k sensor to capture incredible detail, and offers industry-leading flexibility for any room environment.

- **Polycom EagleEye Producer** (standard on all 55" and single 70" packages) uses innovative facial-tracking to instantly recognize everyone in the room and frame them all properly for greater impact, even as participants enter, leave or stand to present. Plus it counts and records the number of participants in each meeting so you can measure the full impact of your video investment.

- **Polycom EagleEye Director II** (standard on all dual 70" packages) automatically zooms in on the person speaking, transmitting facial expressions and body language for higher impact and more productive video collaboration. EagleEye Director II includes EagleEye IV cameras.

- **Polycom Microphone Array** provides 360-degree coverage of high-fidelity audio to the far end participants or can be configured to provide Polycom® StereoSurround™.

- **1080p license** provides 1080p60 resolution to share video clips, CAD animations, medical diagrams, or anything else you can dream up in high resolution.

- **Native interoperability with Skype for Business/Lync** extends the benefits of your UC platform investment while simplifying the experience for users with included Lync interoperability license (RTV license).

- Single and dual high-definition LED display packages are available in 55" or 70" for an ideal viewing experience.

- Modern slimline stand adds contemporary influence to your meeting rooms.

- High-fidelity loudspeakers provide room-filling audio so everyone can hear without straining.
